

The aged Montgomery Blair is a candidate for Congress from Maryland.

The registration of voters in San Francisco is some six thousand less than it was two years ago.

Judge Porter visited Clifton, Graham county, where he had a rousing meeting. Graham goes for Porter without doubt.

Drill, the fight rages, and the candidate who can furnish the most whisks gets the most followers—into a saloon.

The Hon. Joseph N. Dolph has been elected Republican Senator to the National legislature at Washington, Oregon.

The Republicans of New York have nominated L. L. Lewis for Judge of the Supreme Court, at the late Judicial convention at Buffalo.

The arms which were taken from the Pima county rangers by the Mexican authorities, some time ago, have been returned to the United States authorities.

Several hundred Chinese, says Truth, have landed in San Francisco from Hong Kong as actors, and as there is no call for their services they are making cigars, etc.

OURY has been so exhausted by his "masterly inactivity" in Congress that he now retires to private life at Florence to recruit. The people will give him an unqualified permit on November 7th.

The Gazette asserts that Democrats have been solicited to allow their names to be placed upon the Republican ticket for Sheriff. Will the Gazette be so condescending as to mention the names of those Democrats?

ARRANGERS are being made in Utah under the provisions of the Edmunds Bill, for unlawful cohabitation and polygamy. The last Salt Lake Herald gives the particulars of the arrest of one F. F. Hintze, of Big Cottonwood.

The Independent claims that the Republicans and Democrats of Cochise have been committing frauds in the registration of voters, something over 3,000 being registered out of a population of 10,000—nearly every third person, man woman and child, a voter.

"TRAIN a youth up in the way he should go and in manhood he will not depart from it," is an old saying. It strikes us as if the adage be true there are politicians among us whose political parentage is of doubtful character and from whom "sonny" received mighty little attention. At least the display of political virtue seems to be at a very low ebb, and the mud and filth of the bottom of the pool becomes visible.

The news comes pretty directly that Ben Morgan, a prominent Democrat of Pima County, charges Horton, the Democratic candidate for Superintendent of Public Instruction, with having perjured himself in open court, and Horton has not yet dared to deny the charge. A splendid character, truly, to place at the head of innocent girl and boyhood. The people that would place such a man in that position deserve the retribution that should follow.

An honest man in politics is too often led to the shambles by the tricksters that infest the great parties as maggots do cheese. Nor are these tricksters confined to a single party or to either party. They constitute the third party which under the guise of Democrats and Republicans work together for themselves, using the honest old parties for the most nefarious purposes. They are secret. They never have a name; never are known to the public as a party; never work openly. They know each other well, their purposes are one, while they stand up before the public as the most honest antagonists in opposite parties. They are nothing less than political plunderers who rob the people according to law. They raise the cry of "fight" and "murder" and make a rush, but with the pockets of those who are given enough to rush with them! Two to the pocket of those who are blinded by their party zeal! Those fellows are wide awake; they want nothing better than to see the blind partnership spring up, for by it they better are they concealed, and by it they work and secure their objects; without it they are powerless; partnership of the bitterest character is their weapon. Can any one point to an evidence of this nameless third party in this county?

The outlaw James who has recently surrendered to the Missouri authorities held a levee at a hotel in Jefferson City, which was attended by almost the entire population, not excepting Governor Crittenden and wife. Such a travesty on common decency and the supposed intelligence of a community we have never before heard of. A red-headed murderer, one who has been an outlaw of the country for fifteen years receives the plaudits of a city and its leading citizens, for it is nothing less than applause prostrated to the basest purposes. Arizona, with all her crudeness and roughness today would not be guilty of the insult in sentimentality and tacit recognition of robbery and murder which has characterized the people, the highly civilized and refined people of Jefferson City. In Arizona, James would grace the firm of a cotton-wool tree instead of lounging in the seat of honor at a levee at a first-class hotel. He would quickly get a chance to be freeman in the kitchen of his satanic majesty's immense hostility beyond the river.

Our legislative ticket demands the attention of honest voters of both parties. Maricopa County needs men in the legislature the coming term who can do something for her, who can defend her from the incursions of the clipping process that sets off large portions of the county into other and new counties; men who will secure to us all the rights and privileges that will help us to build up our county in prosperity and that will aid us in getting out of debt. Our legislators, if they be men of sagacity, can do much for us in that way, or if they lack push and political tact they may sink us still deeper into the mire and secure nothing beneficial to us whatever. Look well to the men for whom you cast your votes.

The Democratic candidate for Superintendent of Public Instruction has put himself before the public as a violator of the law in sending a challenge to fight a duel. Our telegraphic dispatches this morning give the particulars of his attempt to become a party in a duel. The gentleman may show that he is mad and that his grit is up, but he also sets the example to those whose instruction he would lead and direct that the law of the land should receive no respect from her people and may be trampled upon with impunity. Parents, is this the man whom you would have direct your children in education?

The Hon. A. E. Davis whom we have had the pleasure of meeting for the first time, impresses us as a gentleman who will fill the office of Superintendent of Public Instruction, if elected, with honor to the party that has nominated him and with the dignity and scholarly qualities that should grace the head of the public school system of the Territory. Arizona will have no occasion to regret or feel ashamed that she has put her grandest privilege, the free education of her youths, into the hands of the Hon. A. E. Davis.

Do you know what these are, my child? They root in the ground and sleep in the mud. Oh, see how black and dirty they are! They spoil the farmers' wheat. They would dirty your hands if you should touch them. No, they are not honest; they are not good for anything except to kill. They are politicians, my child. The one in front is called Republican, the one behind is named Democrat. Two hogs with but a single thought: to wallow in dirt, and shame, and slime.—[Truth.]

Let not the Democratic brethren deceive themselves with regard to the Republican ticket in this county. Though at present there is no candidate on that ticket for the office of Sheriff, and for aught we know may be none, the remainder of the ticket will make a strong and honorable fight for the several offices for which we have candidates. The men whose names appear on the Republican ticket are first-class men for the several official positions and the people will not overlook that fact at the polls.

We learn from the *Sonnet* that the Blythe Sugar Company of the Lerdo Colony on the Colorado bottoms, have erected a number of buildings of substantial character at their plantations and are preparing to put out a large crop of cane coming spring. Our valley offers due inducements to an enterprising firm or company in the same line. No better climate or soil for cotton and sugar than the Salt River Valley. We want men that will take hold of it.

The Prescott branch railroad business, which raised the hopes of our sister town so high, seems to have lost its grip, and the Prescott Journal rightly expresses their indignation.

By a special to the HERALD we learn that a number of prisoners also in all, escaped from the jail in Tucson last evening. A dispatch to Sheriff Orme came from Sheriff Paul, of Pima county, asking that no expense be spared to secure the escapees. Among them are several who await trial for murder and robbery. Strange characters should be carefully scrutinized to the end that should be required, minute descriptions may be given which may serve to direct the officers in the search.

A GRAND Republican rally occurred at Tombstone last night which proved to any one with half an eye that Judge Porter will command the vote of Cochise in the ensuing election. The Judge is working everywhere and indefatigably, and that success will come there is no doubt.

THE Democratic leaders can tell of no reason why the people should not vote the Republican ticket, but they are exceedingly busy trying to explain why they should vote the Democratic ticket. It takes an argument and numerous excuses to make the latter point clear.

Vote for the men who will make the most competent officers and the greatest benefit to the county and whom you will find named on the Republican ticket.

VULTURE will vote for Porter; Temple will vote for Porter; Mesa will vote for Porter; Phoenix will vote for Porter; the county will vote for Porter.

The Courier says: "Judge Porter cannot commence to carry his own county," we wonder that he will end by carrying it about November 7th.

THERE are no good reasons given why the Republican ticket should not be elected in this county.

Vote for Porter and the interests of the Territory.

VULTURE LETTER.

ED. HERALD.—This has been a very eventful week in the city of Vulture. Two of our young ladies started out in a buggy to Mr. Brill's one afternoon and when about five miles from here they had a collision with a house and a horse. One of the young ladies was killed and the other was badly injured. The house was also damaged. The cause of the accident was the carelessness of the driver. The driver was charged with the manslaughter of the young lady who was killed. The driver was found guilty and sentenced to prison for life.

THE Hon. A. E.
